TECHNICAL SKILLS:

AWS(RDS, S3, EC2, DMS)
Terraform
Oracle PLSQL
Mysql
Python
Java
Nifi
Agile
Data Structures
Linux
Algorithms
C
Microservices
Git

PERSONAL SKILLS:

Self-Motivated
Critical Thinking
Good interpersonal relationships
Collaborative worker
Problem Solving
Mentor

Timothy Ritshuri

Senior Software Engineer

PERSONAL SUMMARY:

I am seeking a chance to collaborate with a team that fosters innovation. I am eager to enhance my knowledge and tackle challenging projects that will help me develop as a software engineer. While my current focus is on databases and cloud-based database administration, I am open to broadening my skill set. I am actively working on personal projects involving Microservices and Android app development to further expand my expertise.

WORK EXPERIENCE

Software Engineer

ALTRON SYSTEMS INTEGRATION

February 2019-Present

- I developed and enhanced Oracle database applications through PLSQL.
- I am both DBA and AWS Cloud DB Support Engineer for Aurora and MariaDB.
- I played a key role in migrating databases from on-premise Oracle database to AWS RDS for Vodacom as a contractor.
- I have worked with both waterfall to agile methodologies.

EDUCATIONAL INFO

University of the Western Cape (2016 - 2018)

BSC COMPUTER SCIENCE

- Majors: Computer Science, Information Systems, Math

Nyumbani High School

MATRIC

- Math (A) English (A) Physical Science (A)

SKILLS ACQUIRED

- I discovered how to thrive under immense pressure to meet deadlines and navigate various team dynamics in group projects.
- Acquired the skill of self-teaching programming languages to achieve specific project goals.
- Going above and beyond to accomplish tasks and taking responsibility for my work and errors.

CERTIFICATIONS

- AWS Cloud Practitioner (W8DP052BFNFQ1E32)
